product range and our high degree of flexibility enable us to offer customised solutions that quickly fulfil the specific needs of our customers and the requirements of the market. We achieve this through continuous further development.

solutions from a single source, from research and development through to production. With our analytical and practice-orientated approach, we have numerous pioneering developments to market maturity - especially in the cleaning sector. especially in the cleaning sector.

environment and improve our customers' processes. We are problem solvers; and have been for more than 30 years. Because we understand our customers and develop solutions - reliable, flexible and customised. We owe this to the quality of our work and, of course and, of course, the experience, expertise and passion of our employees.

existing brands of comparable quality. Cost-effective alternative to existing manufacturer brands with over 200 articles from various various categories. The method of testing all new ideas first has never been changed. Detailers, car care specialists and restylers test our new products in all everyday situations and judge them. From the search for the right product combinations through to the planning and planning and realisation of complete product ranges everything in person, on site, in our studio, by phone, email and WhatsApp.
